

Selected Topics of Digital Forensics I SS21

Lecture 00: Preliminary Discussion

Thomas Grechenig, Franz Mairhofer

ESSE

ESSE – Establishing Security

- Institute of Information Systems Engineering
- Research Group for Industrial Software (INSO)
- Working Group Establishing Security (ESSE)
- Lectures
 - Introduction to Security (*WS, Bachelor*)
 - Security for Systems Engineering (CTF-Contest) (*SS, Bachelor*)
 - Advanced Security for Systems Engineering (*WS, Master*)
 - Selected Topics of Digital Forensics I (*SS, Master*)
 - IT Security in Large IT Infrastructures (CTF-Contest) (*SS, Master*)
 - Seminar on Security
 - Projects, Bachelor Thesis, Master Thesis, PhD Thesis

- Electronic Payments
- Large IT Infrastructures
- Secure and Anonymous Communication
- Embedded Security and Internet of Things
- Governance, Risk and Compliance
- eHealth
- Penetration Testing, Security Audits, Security Certification
- Identification, Authentication and Authorization, eID solutions
- IT Security Teaching Methods
- XML Security

Excerpt of Applying Subject Areas

- Malware and Internet Crime
- Physical Security of IT Systems
- Applied Cryptography
- Exploit Development, Offensive Computing, and Exploit Mitigation
- Rootkits and OS Security
- Honeypots, Honeynets, and Honeytokens
- Mobile Security
- Privacy-Protection in Cloud/Mobile Applications
- Security Usability for End-2-End Security
- Security Engineering in the Software Life-Cycle

- Questions regarding Selected Topics of Digital Forensics I
 - <https://security.inso.tuwien.ac.at/>
 - Tuwel forum
 - lva.security@inso.tuwien.ac.at – please state the lecture name as this e-mail address is used for multiple lectures
 - *Please don't use other ways, e.g., Tuwel submission comments*

- Office Hour on agreement: Wiedner Hauptstraße 76/2/2

- esse@inso.tuwien.ac.at

Selected Topics of Digital Forensics I SS21

Aim of the Lecture

At the end of the term, the students of the lecture should know *critical aspects of forensic investigations*.

Moreover, students should know *different fields of application of forensics* as well as the different *important facets* of these.

Forensics supports a *high level of IT security*. At the end of the term, students should know *how this can be achieved*.

In short, students should know *when and how forensic methods can and should be applied*.

A *focus* is put on how *forensic methods* are applied *in real world projects*.

- Workshops (6 lectures)
- Team presentations (2 lectures)
- Grading: 50% exercises, 50% team presentations
- After the first exercise submission a certificate is issued
- Presentation + exercises have to be passed, i.e., you need to earn more than 50% respectively
- Documents: slides, mindmaps, literature references
- Registration for the course in TISS until 11.04.2021

- 2 labs (1 individual lab, 1 team lab)
- Exercises mandatory, lab0 is final course registration
- Lab1 is a rolling lab, i.e., more exercises get published in time
 - After 07.05.2021 no exercise releases
- Team registration, exercise submission etc. in tuwel

- Topic must be ...
 - Chosen from the field of Digital Forensics
 - Submitted via tuwel
 - Approved by ESSE
- Duration depends on the number of participants (final decision after team registration is completed)
- High quality sources (listed in slides)
- Slides must be written in English and submitted via tuwel

Team Presentations 2/2

- Due to time constraints, the presentation must not be held as a workshop but can contain short interactive elements or demonstration parts
- Presentation will be held via Jitsi
- Q&A Session: 5 minutes after presentation slot
- Team work, presentation style freely selectable within specifications
- Time Contingent Management: no under- or overflow, hard timecut
- Grading mainly based on live presentation
- Team issues? → Mail: Iva.security@inso.tuwien.ac.at

Registration for Teams

- Registration for teams in tuwel
- You have to registrate yourself for a team
- Tewel forum may be helpful for finding a team
- Before joining a team with members you don't know, do ask your prospective team mates :)
- If you don't know anyone and can't find a team please join the tuwel team *Random Assignment After Deadline* and we will assign you to a team after the deadline for the team registration.
- Arrangement of teams is mandatory (otherwise, 0 points for lab1)
- If there are problems in teams, please write ASAP an e-mail to lva.security@inso.tuwien.ac.at

Course Discontinuation

- Sometimes, you recognize your goals were set too high. . .
- Be fair to your team colleagues: inform your colleagues and us (lva.security@inso.tuwien.ac.at) directly after your decision
- Consequence: negative certificate after first submission

Note on Attacks on IT security of IT systems

- In the lecture you learn specific attacks on IT security of IT systems
- This is only for
 - getting a better understanding of IT security
 - securing your own systems
 - testing the IT security of your own systems
 - usage in the legally approved scope
- Attacking the TU Wien or attacking other systems based on systems of TU Wien can lead to the withdrawal of the permit to study
- Exception: Attacks on our infrastructure as defined in the lecture ;)

- 04.03.2021** Preliminary Discussion, Introduction to Digital Forensics
- 18.03.2021** Forensic Analysis (Images, Videos, Documents and More)
- 25.03.2021** Incident Reconstruction of Systems
- 15.04.2021** Fingerprinting of Soft- and Hardware
- 29.04.2021** Forensic Methods for Memory and Storage Dumps
- 06.05.2021** Anti-Forensics

- 20.05.2021** Team Presentations
- 27.05.2021** Team Presentations

Planned Exercise Dates

Lab0 Individual lab, 20 points, 19.03.2021–26.03.2021*

Registration for teams 12.04.2021–15.04.2021

Lab1 Team lab, 80 points, 16.04.2021–11.06.2021

Note:

ESSE exercises usually traditionally start and end at 11:55PM

*submission open until 11.04.2021

Support for Questions Regarding the Lecture

- Questions that are interesting/should be visible for other students as well
 - Tuwel forum
 - *Please note: We do not monitor other forums*
 - *Please do not use other ways, e.g. Tuwel submission comments*

- Specific questions
 - lva.security@inso.tuwien.ac.at – please state the lecture name as this e-mail address is used for multiple lectures
 - Office hour

Thank You!
